## NFPA 25 2023 Ed.

PI's submitted to NFPA 25-2020 for IFPA: 33, 34, 233, 241, 23, 249, 254 and 256.

Note: 249 254 and 256 are tied to submittal for NFPA 13-2019 PI #217 and subsequent PC 33 and 34 resulting in SR 1059. The Closing for submitting NFPA 13-2019 NITMAM was 2/17/21 and will be posted 3/31/21.

Task Group participation for Chpt's. 5,6,7,13,14 and 15 as well as special T.G. for Waterflow.

Ballots were circulated on 2/24/21, final on 3/3/21 and posted on 3/4/21 with First Draft and open for Public Comment with a P.C. closing date of 5/11/21.

Issues for P.C. submittal and Second Draft revisions:

- 1) FR #143, Chpt.11, To be discussed with chpt. 11 task group chair prior to submittal to determine action on sections 11.2.4.2 5,11.2.11.2.2 and 11.3.1.3
- 2) FR # 12, A.4.1.1 Currently reads:

Any portion of or all inspection, testing, and maintenance is permitted to be contracted out to an inspection, testing and maintenance service company. When such a service company agrees to perform inspections, tests, and maintenance at a specific frequency required by this standard, it should perform all required inspections, tests, and maintenance more frequently than specified. For example, a service company agrees to perform required inspections, tests and maintenance on an annual basis. The inspections tests, and maintenance required on a daily, weekly, quarterly, and semiannual frequency should also be performed annually.

Change to:

Any portion of or all inspection, testing, and maintenance is permitted to be contracted out to an inspection, testing and maintenance service company. When such a service company agrees to perform inspections, tests, and maintenance at a specific frequency required by this standard, it should perform all **other** ~~required~~ inspections, tests and maintenance **required** more frequently. ~~than specified.~~ For example, a service company.....

- 3) FR # 8, Section 3.3.48 Remove the word checks and replace it with "tests"
- 4) FR # 19, Section 4.1.9.1 A permanently marked metal or rigid plastic information sign shall be placed at each system control riser.  
Replace "system control riser" with "system riser control valve" or just strike "control"
- 5) FR # 120, Section 5.1.1.1 Another editorial change!
- 6) FR # 64, Section 5.2.1.1.1 Remove part of (6) Paint, other than that applied by the sprinkler manufacturer, ~~detrimental to sprinkler performance.~~
- 7) FR # 78, Section 8.3.2.10.4 A qualified person(s) shall be **able notified immediately** to respond to the pump location upon abnormal condition ~~within eight hours.~~

FR 79,31,33 and 34 are all editorial changes as well, and the anti freeze section will come back up with the addition of the roll out of the new Tyco LFP+ anti freeze solution with the -25 deg rating vs the original LFP at -10 or the freezmaster at -12.
